Full-stack web developer, passionate about finding solutions to enhance business capabilities, proficient in Ruby on Rails, Sinatra, JavaScript, React, Vue.js, and excited to learn new technologies. While in the financial industry, I was inspired to train new hires and teach them the technical skills required to contribute to the department's goals and decrease onboarding timelines. I am a patient teacher, quick learner, and experience in working on a variety of teams.

## TECHNICAL PROJECTS

### #2 Doo List

*React frontend Ruby on Rails backend linked to a PostgreSQL .*

- Navigated the challenges of developing an app while having a user
- Fully deployed frontend and backend on heroku
- Implemented full CRUD functionality
